3M AS 3M/2800

3M ZAŠTITNE NAOČALE PLAVE

Dizajn naočala 2800 omogućuje nošenje preko većine dioptrijskih naočala uz minimalno ometanje. One pružaju izuzetnu pokrivenost i vidljivost, u kombinaciji s visokim stupnjem zaštite od nepovoljnih utjecaja. Prilagodljiva duljina okvira (četiri položaja) omogućuje optimalnu udobnost i dobro pristajanje. Leće se mogu zakrenuti radi prilagođavanja i maksimalne udobnosti. Meki okviri niskog profila omogućuju udobnost i minimalno ometanje kada se koriste s dioptrijskim naočalama.

3M SAFETY OVER SPECTA CLES,

BLUE

Design eyewear 2800 enables you to take over most prescription glasses with minimal disruption. They provide exceptional coverage and visibility, combined with a high degree of protection from adverse impacts. Adaptive frame length (four locations) provides optimum comfort and good fit. The lens can be rotated for adjustment and maximum comfort. Soft low profile frames provide comfort and minimum interference when used with dioptr glasses.
